Work  Nexus<sup>®</sup>

**WORKS  
FOR YOU.**

## FLEXIBLE TALENT MANAGEMENT

---

Managing contingent workforce acquisition and productivity can be a lot to handle for even the most seasoned HR and procurement professionals. That makes it that much more important to have the right solution in place—especially with systems now expanding to include independent contractor, freelancer and SOW vendor management, as well as procurement process optimization.

Since 1998, Work Nexus has stood at the forefront of workforce management technology. With the latest generation of Work Nexus, we continue to lead the way with innovative configurations designed to our customers' specific needs.

We don't do off-the-shelf or out-of-the-box—Work Nexus is about you.

# an·a·lyt·ics

A **nexus** of business intelligence helps you **work** smarter and more efficiently.

## POWERFUL ANALYTICS

---

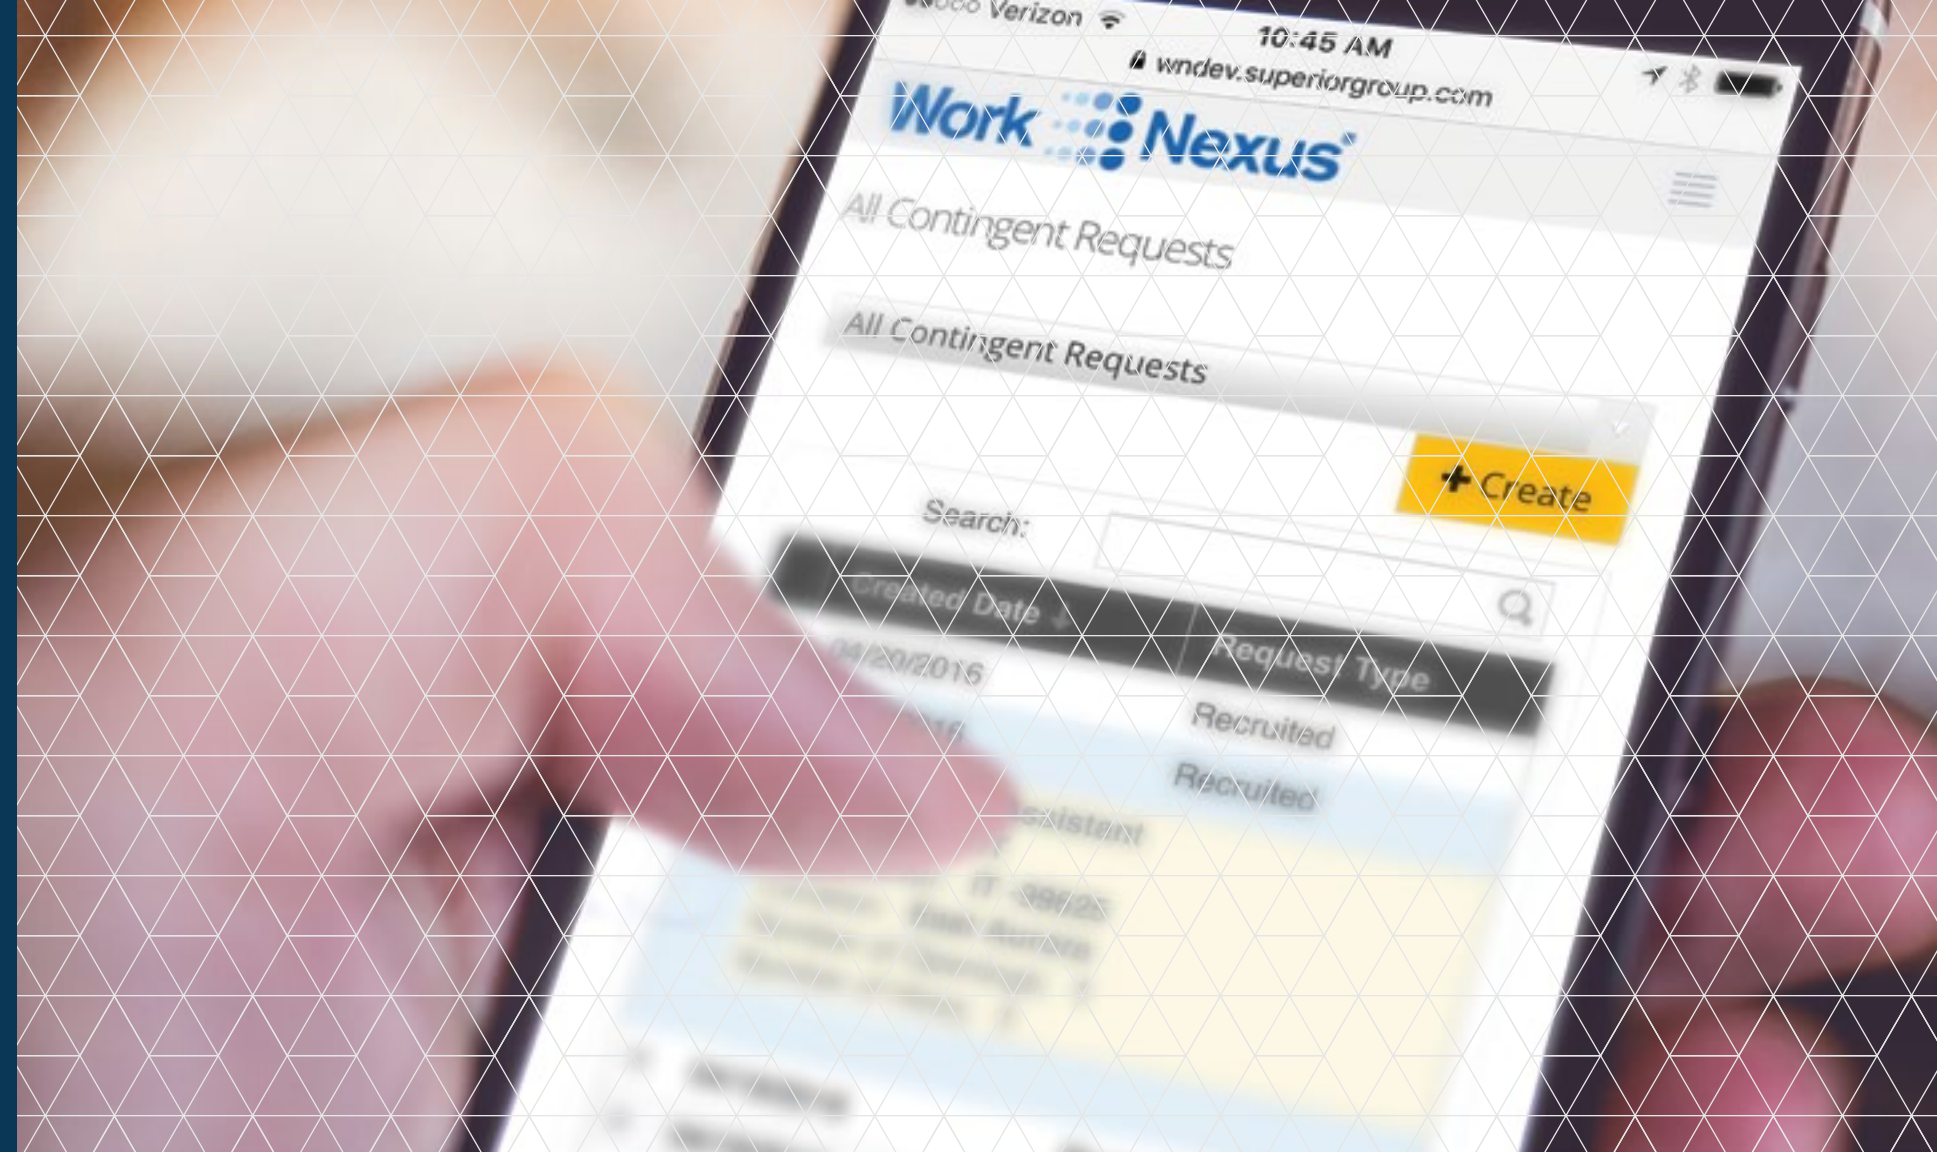

Don't assume. Know.

Work Nexus provides a suite of analytics tools and data sets that will keep your contingent workforce program running on numbers, not assumptions.

With an all-new dashboard designed for an enhanced user-experience, Work Nexus displays all of your essential information and tasks front and center, reducing clicks, pages, and confusing dialogues. You're welcome.

**/spēd/**

Built as as your nexus point for efficiency, **work** is simple.

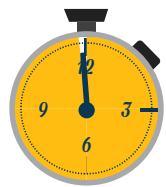

## Saving Time

Creation

### A NEW GENERATION OF SPEED

---

Our developers built Work Nexus to make users' lives easier. Vendor neutrality has always been baked into our processes, but now you can leverage them in new and better ways. Empower your managers to compare candidates and rate them for later review right in the system... and to use full assignment cost forecasts to make smarter selections that stick to budgets... and to apply wizards that help guide temporary vendor engagement decisions for labor vs. independent contractors vs. SOW vendors. Do it all with speed and precision.

## Enhanced Experience

## EXPERIENCE AND EXPERTISE

---

We aren't a tech company building a product; we're a workforce solutions company delivering value through partnerships and collaboration.

Work Nexus is a comprehensive and adaptable VMS built on over 50 years of staffing industry and 15 years of application experience that makes it the ideal choice for customers looking for the right, custom fit and in a user-friendly package.

All of our experience and acumen have come together to create a tool that enables your teams—and your business—to activate the potential of your contingent workforce.
